(620) 491-2194 • viacheslav.deniskin@gmail.com • vdeniskin.com

UX and quantitative researcher with 80+ end-to-end studies spanning user interviews, concept testing, surveys, and online experiments. Experienced translating mixed-methods findings into product and design recommendations for cross-functional partners. Hands-on with AI tools (Claude Code, Codex) integrated into research workflows for synthesis, analysis, and reporting. Skilled in SQL, R, Python, and Qualtrics.

EXPERIENCE

University of Kansas, Quantitative & User Researcher

Aug 2021 – Present

Lawrence, KS

- Led 80+ end-to-end mixed-methods studies (N=80–300 each), spanning survey design, in-depth interviews, concept testing, and online A/B experiments across concurrent product and communication research projects.
- Designed and ran controlled experiments evaluating creative and messaging variants, driving a 15% lift in brand attitudes; analyzed results in R using ANOVA, regression, mediation, and factor analysis.
- Partnered with nonprofit leadership to diagnose low engagement; designed a multi-study research program and online A/B tests, improving click-through rate by 58%.
- Conducted user interviews and concept tests to surface psychological drivers of decisions; translated qualitative themes into testable hypotheses validated through follow-up quantitative studies.
- Analyzed 6+ months of social media data across 50+ brands using regression, time-series, and difference-in-differences methods to identify behavioral patterns and content drivers.
- Synthesized 200+ unstructured sources via NLP and topic modeling to extract themes for marketing and product stakeholders, presenting findings to non-technical audiences.
- Translated complex user behavior concepts and research findings into clear, applied frameworks through lectures to 300+ participants and students.

Freelance | Research Consultant

Nov 2025 – Present

Remote

- Conducted user interviews with self-published authors (a creator monetization community) to redefine success metrics; recommendations improved ad conversion by 13%.
- Designed an interactive dashboard providing near real-time performance feedback, helping creators optimize content effort and time allocation.

Kraft Heinz UK, Summer Intern

Jun 2018 – Aug 2018

London, UK

- Partnered with sales leadership to define 5 KPIs and build an Excel dashboard visualizing 600+ rows of weekly field data, informing customer retention strategy.

EDUCATION

Ph.D., Marketing, University of Kansas

May 2026 (Expected)

M.S., Marketing, The University of Texas at Dallas

May 2021

Dean's Academic Excellence Scholarship · GPA 3.83/4.0

B.S., Accounting & Finance (Honors), University of Warwick, Warwick Business School

Jul 2019

Second Class, Upper Division

SKILLS

Research Methods: User interviews, concept & usability testing, surveys, experiment design, A/B testing, factor and mediation analysis, regression, time-series, difference-in-differences

Tools: Qualtrics XM, Python (pandas, Dash, PyTorch), R (tidyverse, ggplot2, Shiny), SQL, SPSS, Tableau, Excel

Languages: English (fluent), Russian (fluent)
